

Proposed Action

WHAT?

- ▶ Replace the Ohio-class submarine with the Columbia-class submarine.
- ▶ Demolish, construct, and renovate facilities and infrastructure at Upland Site-North, Keyport Annex, Upland Site-South and at the Pier Site.
- ▶ Improve stormwater infrastructure and create construction laydown and staging areas for materials and temporary parking.
- ▶ No in-water work required.
- ▶ No projected changes in personnel numbers stationed or numbers of submarines homeported.

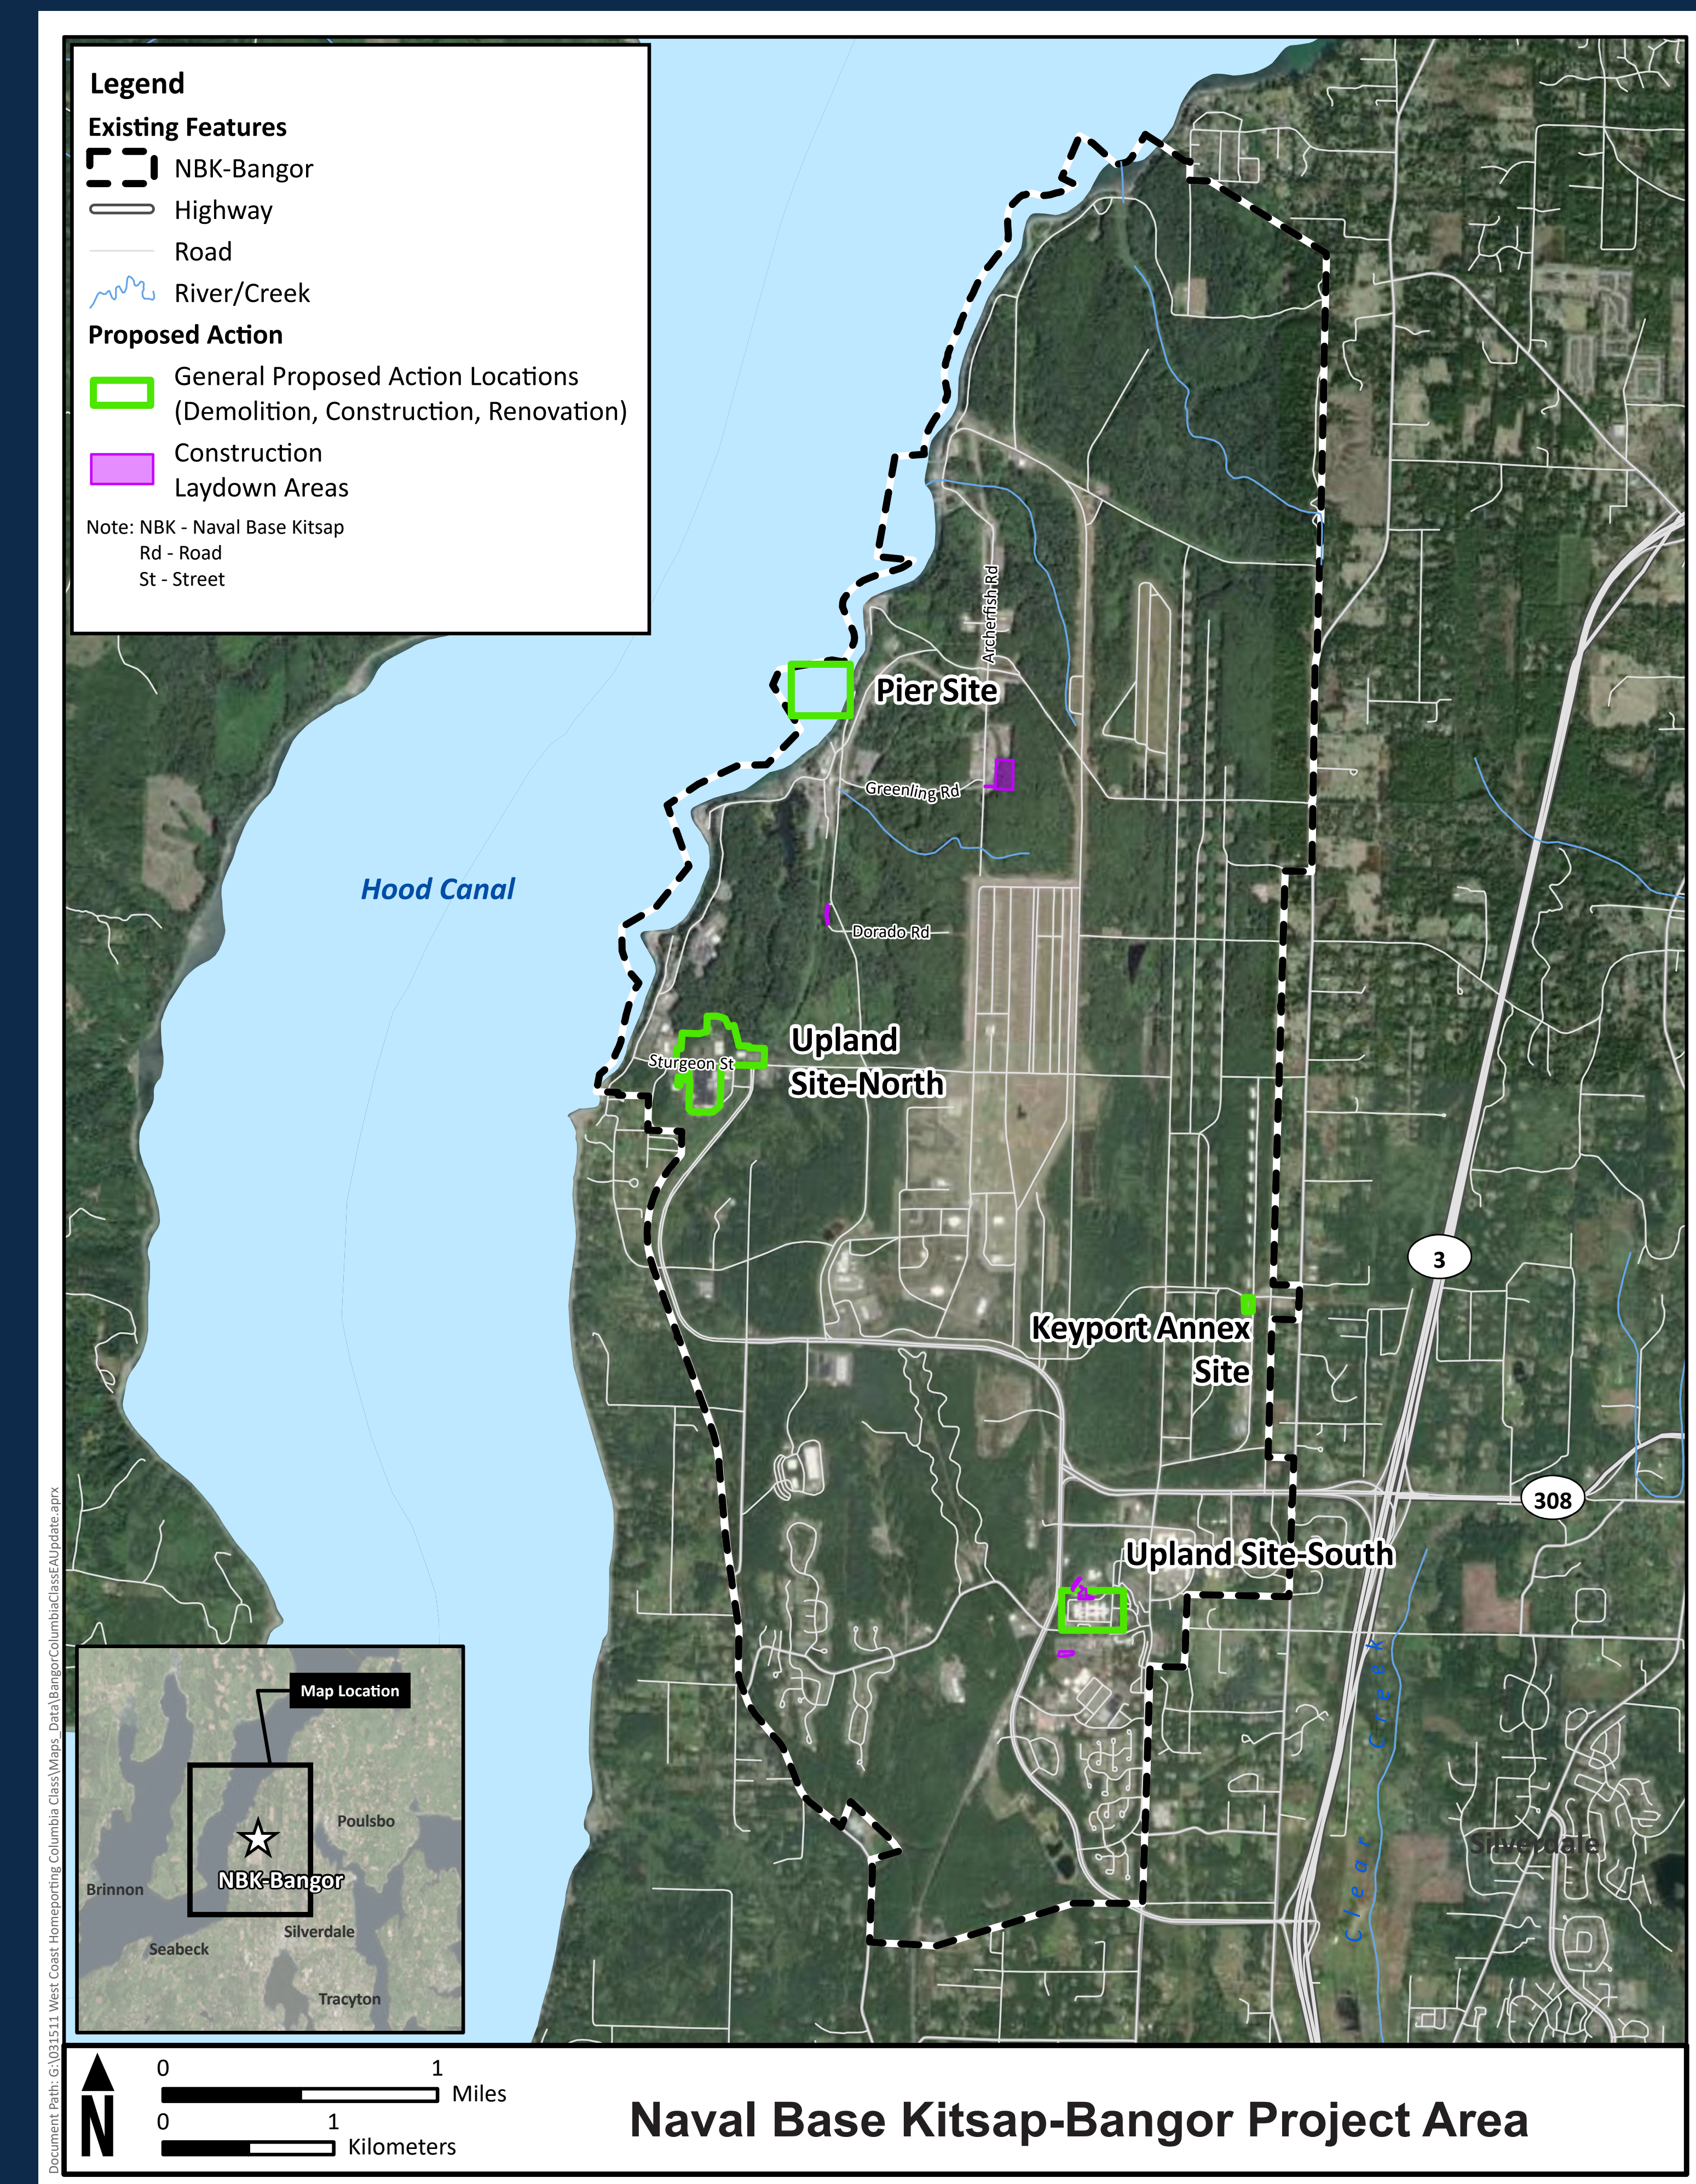

WHY?

- ▶ To ensure continuation of the U.S. Navy's (Navy) sea-based strategic deterrence mission.
- ▶ Updated capabilities and technology ensure the Navy can respond to current and future threats and meet national defense objectives and policies.

WHEN?

- ▶ Construction is anticipated to begin in July 2027.
- ▶ Construction would take approximately 5 years to complete.
- ▶ All construction would be completed prior to the anticipated arrival of the first Columbia-class submarine.
