FINAL EA NEWSPAPER ADVERTISEMENT - ENGLISH

Notice of Availability of the Final Environmental Assessment and Finding of No Significant Impact for the Transition from C-2A to CMV-22B Aircraft at Fleet Logistics Centers Naval Air Station North Island and Naval Station Norfolk

The United States Department of the Navy (Navy), in accordance with the National Environmental Policy Act, announces the availability of the Final Environmental Assessment (EA) proposing to provide facilities and functions to support the replacement of the C-2A Greyhound aircraft with the new CMV-22B Osprey (Navy V-22) aircraft at existing West and East Coast Fleet Logistics Centers Naval Air Station North Island, CA and Naval Station Norfolk, VA. The purpose of the proposed action is to provide the logistics support community the facilities and functions needed to support the replacement of the aging fixed-wing C-2A aircraft with the Navy V-22 tilt-rotor aircraft to meet operational demands and enhance the logistics support mission. The Final EA summarizes the environmental effects of the proposed action, which includes replacing 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons; establishing a Navy V-22 training squadron for pilots and aircrews; establishing a maintenance school; constructing, renovating, and maintaining facilities to accommodate squadron aircraft and personnel; making adjustments to personnel levels associated with the Navy V-22 training squadron and maintenance school; and conducting Navy V-22 flight training operations.

The Draft EA was made available for public review and comment from January 4 through February 26, 2018. During the review period, the Navy hosted public meetings in Norfolk, VA and Coronado, CA on January 18 and February 7, respectively. All comments received were considered in preparing the Final EA. The Navy has also complied with all other applicable environmental laws.

Based on the findings presented in the Final EA, the Navy has determined that the proposed action through implementation of either alternative 1 or 2 would have no significant impact on the quality of the human environment. Therefore, preparation of an environmental impact statement is not required and a Finding of No Significant Impact (FONSI) has been issued.

At this time, the Navy has not made a decision with respect to the ultimate location of the Fleet Replacement Squadron (FRS). The Navy will announce that decision once it is made.

The Final EA and FONSI are available at the following websites: <http://www.aftteis.com/navy-v-22> and <http://www.public.navy.mil/usff/environmental/Pages/navy-v22.aspx>, or at the following libraries: **Coronado Public Library**, 640 Orange Avenue, Coronado, CA; **San Diego Central Library**, 330 Park Boulevard, San Diego, CA; **Point Loma/Hervey Branch Library**, 3701 Voltaire Street, San Diego, CA; **Imperial Beach Branch Library**, 810 Imperial Beach Boulevard, Imperial Beach, CA; **Mary D. Pretlow Anchor Branch Library**, 111 West Ocean View Avenue, Norfolk, VA; **Groninger Library**, 1313 Washington Boulevard, Fort Eustis, VA; **Chesapeake Public Library**, 298 Cedar Road, Chesapeake, VA.

FINAL EA NEWSPAPER ADVERTISEMENT – SPANISH

Notificación de Disponibilidad de la Evaluación Ambiental Final y la Determinación de No Existencia de Impacto Ambiental en la Transición de las Aeronaves C-2A a las Aeronaves CMV-22B en los Centros Logísticos de las Flotas Aéreas en la Estación Aérea Naval de la Isla Norte y la Estación Naval de Norfolk.

El Departamento Naval de los Estados Unidos, según el Acta de Política Nacional en Materia del Medio Ambiente (NEPA por sus siglas en Inglés), anuncia la disponibilidad de la Evaluación Ambiental (EA) Final, donde se propone establecer facilidades y servicios en apoyo a la sustitución de los aviones C-2A Greyhound existentes en los Centros de Flotas en las Estaciones Aéreas Navales en las Costas Este y Oeste en la Estación Aérea Naval North Island, CA y la Estación Naval de Norfolk, VA con el nuevo avión CMV-22B Osprey (V-22 Naval). El propósito de la Acción Propuesta es proveer el apoyo logístico comunitario a las instalaciones y apoyar las funciones necesarias para la sustitución de los viejos aviones de ala fija C-2A con el avión de rotor inclinado V-22 para satisfacer demandas operacionales y mejorar la misión de apoyo logístico. El EA Final resume los efectos ambientales de la Acción Propuesta, que incluye el reemplazo de 27 aeronaves C-2A operados por escuadrones de apoyo de flota logística existente por 38 aviones V-22 operados por flota logística de escuadrones de apoyo de multi-misiones; la creación de un escuadrón de entrenamiento de la Infantería de la Marina V-22 para pilotos y tripulaciones aéreas; establecer una escuela de mantenimiento; construcción, renovación y mantenimiento de instalaciones para dar cabida a aviones de la escuadrilla y sus tripulaciones; hacer ajustes de los niveles de personal asociados con el escuadrón V-22 y la escuela de mantenimiento; y conducir operaciones de vuelo de entrenamiento del V-22.

El Borrador de la EA estuvo disponible para su revisión desde el 4 de enero al 26 de febrero de 2018. Durante el período de revisión, el Departamento Naval organizó reuniones públicas en Norfolk, VA y Coronado, California, el 18 de enero y el 7 de febrero, respectivamente. Todos los comentarios recibidos fueron considerados al preparar la EA Final. El Departamento Naval también ha cumplido con todas las demás leyes ambientales aplicables.

Con base en el análisis presentado en la EA Final, el Departamento Naval encuentra que la implementación de la Acción Propuesta a través de la implementación de la Alternativa 1 o 2, no tendrá un impacto significativo en la calidad del medio ambiente humano o natural. Por lo tanto, la preparación de una Declaración de Impacto Ambiental no será requerida y una Determinación de No Existencia de Impacto Ambiental (FONSI por sus siglas en inglés) se ha emitido.

En este momento, el Departamento Naval no ha tomado una decisión con respecto a la ubicación definitiva del Escuadrón de Reemplazo de Flota (FRS por sus siglas en inglés). El Departamento Naval anunciará esa decisión una vez que se tome.

El EA Final y la FONSI del proyecto están disponible para revisión pública en la siguiente página web: <http://www.afteis.com/navy-v-22> y <http://www.public.navy.mil/usff/environmental/Pages/navy-v22.aspx>, o en las siguientes bibliotecas: **Coronado Public Library**, 640 Orange Avenue, Coronado, CA; **San Diego Central Library**, 330 Park Boulevard, San Diego, CA; **Point Loma/Hervey Branch Library**, 3701 Voltaire Street, San Diego, CA; **Imperial Beach Branch Library**, 810 Imperial Beach Boulevard, Imperial Beach, CA; **Mary D. Pretlow Anchor Branch Library**, 111 West Ocean View Avenue, Norfolk, VA; **Groninger Library**, 1313 Washington Boulevard, Fort Eustis, VA; **Chesapeake Public Library**, 298 Cedar Road, Chesapeake, VA.

DRAFT EA NEWSPAPER ADVERTISEMENT - SPANISH

Aviso de la Reunión Pública para la Evaluación Ambiental para la Transición de las Aeronaves C-2A a las Aeronaves CMV-22B en los Centros Logísticos de las Flotas Aéreas en la Estación Aérea Naval de la Isla Norte y la Estación Naval de Norfolk.

El Departamento Naval de los Estados Unidos, según la Ley de Política Nacional en Materia de Medio Ambiente (NEPA por sus siglas en Inglés), ha preparado una Evaluación Ambiental (EA) donde propone proporcionar servicios y funciones para apoyar la sustitución de los aviones C-24 Greyhound existentes en los Centros de Flotas en las Estaciones Aéreas Navales de la Costa Este y Oeste de la Estación Aérea Naval North Island, CA y la Estación Naval de Norfolk, VA con el nuevo avión CMV-22B Osprey (V-22 Naval). El EA del proyecto resume los efectos ambientales de la Acción Propuesta, que incluye el reemplazo de 27 aeronaves C-2A operados por escuadrones de apoyo de flota logística existente por 38 aviones V-22 operados por flota logística de escuadrones de apoyo de multi-misiones; la creación de un escuadrón de entrenamiento de la Infantería de la Marina V-22 para pilotos y tripulaciones aéreas; establecer una escuela de mantenimiento; construcción, renovación y mantenimiento de instalaciones para dar cabida a aviones de la escuadrilla y el personal; hacer ajustes para el personal de los niveles asociados con el V-22 escuadrón y mantenimiento escuela de formación; y la realización de operaciones de entrenamiento de vuelo de V-22. El propósito de la Acción Propuesta es proveer el apoyo logístico comunitario a las instalaciones y las funciones necesarias para apoyar la sustitución de los viejos aviones de ala fija C-2A con el avión de rotor inclinado V-22 para satisfacer las demandas operacionales y mejorar la misión de apoyo logístico.

El Departamento Naval tendrá dos reuniones públicas para proporcionar información y solicitar comentarios sobre el EA del proyecto.

Las reuniones se realizarán usando un formato de puertas abiertas con carteles de información y materiales disponibles para la revisión pública. No habrá ninguna presentación formal. El personal del Departamento Naval estará presente para responder preguntas generales sobre la transición propuesta y el borrador EA. **Usted Puede llegar en cualquier momento durante la duración de la reunión.**

FOR IMMEDIATE RELEASE

Press Release 01-18
January 3, 2018

Navy Releases Draft Environmental Assessment for Home Basing of V-22 Osprey Aircraft at NAS North Island and Naval Station Norfolk

The Navy has prepared and released to the public a Draft Environmental Assessment (EA) proposing to provide facilities and functions to support the replacement of the aging C-2A Greyhound aircraft with the new CMV-22B Osprey (Navy V-22) aircraft at existing West and East Coast Fleet Logistics Centers, Naval Air Station North Island, Ca. and Naval Station Norfolk, Va. The Navy will hold two public meetings to provide information and solicit comments on the Draft EA.

The C-2A was commissioned in the 1960s, refurbished in 1973 and again in 2010. It has reached the end of its service life, and must be replaced.

The purpose of the proposed action is to provide facilities and functions needed to support the replacement of the fixed-wing C-2A aircraft with the Navy V-22 tilt-rotor aircraft to meet operational demands and enhance the Navy's logistics support mission. Navy V-22 aircraft will deliver personnel, mail and cargo to/from aircraft carriers from land-based supply centers in Norfolk, Va. and San Diego, Ca.

The Draft EA summarizes the environmental effects of the proposed action, which includes replacing 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons; establishing a Navy V-22 training squadron for pilots and aircrews; establishing a maintenance school; constructing, renovating, and maintaining facilities to accommodate squadron aircraft and personnel; making adjustments to personnel levels associated with the Navy V-22 training squadron and maintenance school; and conducting Navy V-22 flight operations.

Based upon the analysis in the EA, the introduction of the Navy V-22 is expected to have only minor impacts on the environment and local community.

The public meetings will be conducted using an open house format with information displays and materials available for public review. There will be no formal presentation. Navy staff will be present to answer general questions on the proposed transition and the Draft EA. Interested members of the public may arrive anytime during the duration of the open house. Public meetings will be held on the following dates:

Navy Reschedules Public Meeting Regarding the Draft Environmental Assessment for Home Basing of V-22 Osprey Aircraft at NAS North Island

The Navy has rescheduled a public meeting to provide information and solicit comments on the Draft Environmental Assessment (EA) proposing to provide facilities and functions to support the replacement of the aging C-2A Greyhound aircraft with the new CMV-22B Osprey (Navy V-22) aircraft at existing West and East Coast Fleet Logistics Centers, Naval Air Station North Island, Ca. and Naval Station Norfolk, Va. The public meeting is scheduled for Wednesday, February 7, from 6:30 p.m. – 8:30 p.m. at the Coronado Community Center, 1845 Strand Way, Coronado, Ca.

A public meeting previously planned for January 23 was postponed due to the federal government shutdown. Due to the delay caused by the meeting reschedule, the Navy has also extended the public comment period until February 26.

The public meeting will be conducted using an open house format with information displays and materials available for public review. There will be no formal presentation. Navy staff will be present to answer general questions on the proposed transition and the Draft EA. Interested members of the public may arrive anytime during the duration of the open house.

The C-2A was commissioned in the 1960s, refurbished in 1973 and again in 2010. It has reached the end of its service life, and must be replaced.

The purpose of the proposed action is to provide facilities and functions needed to support the replacement of the fixed-wing C-2A aircraft with the Navy V-22 tilt-rotor aircraft to meet operational demands and enhance the Navy's logistics support mission. Navy V-22 aircraft will deliver personnel, mail and cargo to/from aircraft carriers from land-based supply centers in Norfolk, Va. and San Diego, Ca.

The Draft EA summarizes the environmental effects of the proposed action, which includes replacing 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons; establishing a Navy V-22 training squadron for pilots and aircrews; establishing a maintenance school; constructing, renovating, and maintaining facilities to accommodate squadron aircraft and personnel; making adjustments to personnel levels associated with the Navy V-22 training squadron and maintenance school; and conducting Navy V-22 flight operations.

Navy V-22 Environmental Assessment -2-2-2-2

Based upon the analysis in the EA, the introduction of the Navy V-22 is expected to have only minor impacts on the environment and local community.

The Draft EA is available for public review at the following website: <http://www.aftteis.com/navy-v-22>.

Printed and electronic copies of the Draft EA may be reviewed at the following libraries: Coronado Public Library, 640 Orange Avenue, Coronado; San Diego Central Library, 330 Park Boulevard, San Diego; Point Loma/Hervey Branch Library, 3701 Voltaire Street, San Diego; and Imperial Beach Branch Library, 810 Imperial Beach Boulevard, Imperial Beach;

Public input is an important part of this process, and the Navy encourages interested members of the public to review the document and provide comment. Comments on the Draft EA may be submitted at either of the meetings, using the public website (<http://www.aftteis.com/navy-v-22>) or at any time during the public comment period from January 4 through February 26, 2018, via U.S. mail, postmarked by February 26, to the following address:

Navy to Host Public Meeting Regarding the Draft Environmental Assessment for Home Basing of V-22 Osprey Aircraft at NAS North Island; Media Availability Scheduled for February 6

The Navy has prepared and released to the public a Draft Environmental Assessment (EA) proposing to provide facilities and functions to support the replacement of the aging C-2A Greyhound aircraft with the new CMV-22B Osprey (Navy V-22) aircraft at existing West and East Coast Fleet Logistics Centers, Naval Air Station North Island, Ca. and Naval Station Norfolk, Va. The Navy has scheduled a public meeting for next Wednesday, February 7, to provide information and solicit comments on the Draft EA. The public meeting is scheduled for 6:30 p.m. – 8:30 p.m. at the Coronado Community Center, 1845 Strand Way, Coronado, Ca.

This public meeting was originally slated for January 23, but had to be rescheduled due to the government shutdown. Due to the delay caused by the meeting reschedule, the Navy has also extended the public comment period until February 26.

The public meeting will be conducted using an open house format with information displays and materials available for public review. There will be no formal presentation. Navy staff will be present to answer general questions on the proposed transition and the Draft EA. Interested members of the public may arrive anytime during the duration of the open house.

The C-2A was commissioned in the 1960s, refurbished in 1973 and again in 2010. It has reached the end of its service life, and must be replaced.

The purpose of the proposed action is to provide facilities and functions needed to support the replacement of the fixed-wing C-2A aircraft with the Navy V-22 tilt-rotor aircraft to meet operational demands and enhance the Navy's logistics support mission. Navy V-22 aircraft will deliver personnel, mail and cargo to/from aircraft carriers from land-based supply centers in Norfolk, Va. and San Diego, Ca.

-more-

Navy V-22 Environmental Assessment -2-2-2-2

The Draft EA summarizes the environmental effects of the proposed action, which includes replacing 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons; establishing a Navy V-22 training squadron for pilots and aircrews; establishing a maintenance school; constructing, renovating, and maintaining facilities to accommodate squadron aircraft and personnel; making adjustments to Navy personnel levels associated with the Navy V-22 training squadron and maintenance school; and conducting Navy V-22 flight operations.

Based upon the analysis in the EA, the introduction of the Navy V-22 is expected to have only minor impacts on the environment and local community.

The Draft EA is available for public review at the following website: <http://www.afteis.com/navy-v-22>.

Printed and electronic copies of the Draft EA may be reviewed at the following libraries: Coronado Public Library, 640 Orange Avenue, Coronado; San Diego Central Library, 330 Park Boulevard, San Diego; Point Loma/Hervey Branch Library, 3701 Voltaire Street, San Diego; and Imperial Beach Branch Library, 810 Imperial Beach Boulevard, Imperial Beach.

Public input is an important part of this process, and the Navy encourages interested members of the public to review the document and provide comment. Comments on the Draft EA may be submitted at either of the meetings, using the public website (<http://www.afteis.com/navy-v-22>) or at any time during the public comment period from January 4 through February 26, 2018, via U.S. mail, postmarked by February 26, to the following address:
Navy V-22 EA Project Manager (Code EV21JB)
Naval Facilities Engineering Command (NAVFAC) Atlantic Division
6506 Hampton Boulevard
Norfolk, Virginia 23508

-USN-

NOTE TO MEDIA: A media availability has been scheduled for Tuesday, February 6, to answer questions about the Environmental Assessment and the Navy's transition from the C-2A to the V-22. Interested members of the media should meet their escort at 1:30 p.m. at the truck lanes on the right hand side of main gate. To RSVP, please contact Helen Haase, Environmental Public Affairs Officer at Commander Navy Region Southwest, at 619-532-3496 or via e-mail at helen.haase@navy.mil.

Dear Mr. Morgan:

SUBJECT: UNITED STATES NAVY'S DRAFT ENVIRONMENTAL ASSESSMENT FOR
THE TRANSITION FROM C-2A TO CMV-22B AIRCRAFT AT FLEET
LOGISTICS CENTERS NAVAL AIR STATION NORTH ISLAND AND
NAVAL STATION NORFOLK

The U.S. Department of the Navy announces the release of the Draft Environmental Assessment (EA) for the Transition from C-2A to CMV-22B Aircraft at Fleet Logistics Centers Naval Air Station North Island and Naval Station Norfolk. This document analyzes the potential environmental effects that may result from the replacement of 27 aging C-2A aircraft with 38 Navy V-22 aircraft. This document and related project information is available on the project website at: <http://www.aftteis.com/navy-v-22>.

The Navy is holding a public meeting on each coast to provide members of the public with the opportunity to review project-related information, ask questions of Navy representatives, and submit written and oral comments on the Draft EA. Comments may also be submitted by mail or using the project website. All comments must be postmarked or received online by February 5, 2018. Enclosure (1) provides more detailed information on the public meetings and methods for submitting comments.

Thank you for your interest and participation in this project. Please contact Mr. Wes Bomyea, at (619) 545-4134 or by email at wesley.bomyea@navy.mil with questions or other concerns relating to this issue.

Sincerely,

S. T. MULVEHILL
Captain, U.S. Navy
Commanding Officer
Naval Base Coronado

Dear Governor Northam:

The U.S. Department of the Navy announces the release of the Draft Environmental Assessment (EA) for the Transition from C-2A to CMV-22B Aircraft at Fleet Logistics Centers at Naval Air Station North Island, CA and Naval Station Norfolk. This document analyzes the potential environmental effects that may result from the replacement of 27 aging C-2A aircraft with 38 Navy V-22 aircraft. This document and related project information is available on the project website at: <http://www.afteis.com/navy-v-22>.

The Navy is holding a public meeting on each coast to provide members of the public with the opportunity to review project-related information, ask questions of Navy representatives, and submit written and oral comments on the Draft EA. Comments may also be submitted by mail or using the project website. All comments must be postmarked or received online by February 5, 2018. The enclosure provides more detailed information on the public meetings and methods for submitting comments.

Thank you for your interest and participation in this project.

Sincerely,

A handwritten signature in black ink, appearing to read "John Scorby", is written over a large, faint, diagonal watermark that says "SAMPLE".

J. C. SCORBY, JR.
Rear Admiral, U. S. Navy

Enclosure: 1. Navy V-22 Draft EA Public Release Information

United States Department of the Navy Draft Environmental Assessment for the Transition from C-2A to CMV-22B Aircraft at Fleet Logistics Centers Naval Air Station North Island and Naval Station Norfolk

Introduction

The U.S. Department of the Navy (the Navy) has prepared and released to the public a Draft Environmental Assessment (EA) to evaluate the potential environmental effects that may result from the Proposed Action to provide facilities and functions to support the replacement of the C-2A Greyhound with the new CMV-22B Osprey (Navy V-22) at existing logistics support centers, NAS North Island, California and NS Norfolk, Virginia.

This document and related project information are available for your review on the project website at: www.afteis.com/navy-v-22.

Project Overview

The Navy has prepared the EA in accordance with the National Environmental Policy Act, as implemented by the Council on Environmental Quality Regulations and Navy regulations for implementing the National Environmental Policy Act. Under this Proposed Action, the Navy plans to:

- replace 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons;
- establish a Navy V-22 training squadron for pilots and aircrews;
- establish a maintenance school for maintenance personnel;
- construct, renovate, and maintain facilities to accommodate Navy V-22 squadron aircraft and personnel;
- make adjustments to personnel levels (increases or decreases) associated with the Navy V-22 training squadron and the maintenance school; and
- conduct Navy V-22 flight training operations.

The EA evaluates the potential environmental impacts associated with a No Action Alternative (per Council on Environmental Quality regulations) and two action alternatives. The two action alternatives consider options for the location of the Navy V-22 training squadron and maintenance school at either NAS North Island or NS Norfolk. Each action alternative contains analysis of different distributions of Navy V-22 flight training operations. The EA evaluates the potential environmental impacts associated with the following resource areas: airfields and airspace, noise, public health and safety, air quality, transportation, biological resources, water resources, infrastructure, cultural

Enclosure 1: Navy V-22 Draft EA Release Information

resources, hazardous materials and waste, and socioeconomics, as well as the cumulative impacts of the Proposed Action and other local projects.

Following public comment on the Draft EA, the Navy will prepare the Final EA. When completed, the Final EA will be published and if warranted by the findings, the Navy will sign a Finding of No Significant Impact. The Navy anticipates issuing a completed Final EA sometime in 2018. Personnel and aircraft would arrive incrementally, as aircraft are delivered by the manufacturer, personnel are trained, and families relocate to the area, until the action is complete.

Public Involvement

Public input is important in order for the Navy to fully understand community concerns and relevant issues regarding the Proposed Action. Therefore, the Navy is offering a 30-day public review and comment period that begins on January 4, 2018 and ends on February 5, 2018. All public comments received will become part of the public record on the Draft EA and will be addressed in the Final EA.

Public Meetings

The Navy is holding two open-house public meetings to provide members of the public with the opportunity to review project-related information, ask questions of Navy representatives, and submit comments on the Draft EA. Each of the meetings will be informal and consist of information stations staffed by Navy representatives. Members of the public are invited to attend the open-house public meetings on one of the following dates, times, and locations:

Meeting Dates/Times	Meeting Locations
Thursday, January 18, 2018 4PM – 6PM	Mary D. Pretlow Anchor Branch Library 111 West Ocean View Avenue, Norfolk, VA 23503
Tuesday, January 23, 2018 5PM – 7PM	Coronado Community Center 1845 Strand Way, Coronado, CA 92118

Additional information about the EA can be found on the project website at:
www.aftteis.com/navy-v-22.

Methods to Submit Comments

There are FOUR ways to provide comments:

- Attend a public meeting and place your written comments in the comment box
- Attend a public meeting and speak with a stenographer, who will transcribe your comments
- Submit your written comments using the project website
- Submit your written comments by mail to the following mailing address:
Navy V-22 EA Project Manager, Naval Facilities Engineering Command
(NAVFAC) Atlantic, Attn: Code EV21/JB, 6506 Hampton Blvd., Norfolk, VA 23508

All comments must be postmarked or received online by February 5, 2018.

Dear Interested Party:

This is to inform you that the United States Department of the Navy (Navy), in accordance with the National Environmental Policy Act, has prepared a Draft Environmental Assessment (EA) proposing to provide facilities and functions to support the replacement of the C-2A Greyhound aircraft with the new CMV-22B Osprey (Navy V-22) at existing West and East Coast Fleet Logistics Centers Naval Air Station North Island, CA and Naval Station Norfolk, VA. The Draft EA summarizes the environmental effects of the proposed action, which includes replacing 27 legacy C-2A aircraft operated by existing fleet logistics support squadrons with 38 Navy V-22 aircraft operated by fleet logistics support multi-mission squadrons; establishing a Navy V-22 training squadron for pilots and aircrews; establishing a maintenance school; constructing, renovating, and maintaining facilities to accommodate squadron aircraft and personnel; making adjustments to personnel levels associated with the Navy V-22 training squadron and maintenance school; and conducting Navy V-22 flight training operations. The purpose of the proposed action is to provide the logistics support community the facilities and functions needed to support the replacement of the aging fixed-wing C-2A aircraft with the Navy V-22 tilt-rotor aircraft to meet operational demands and enhance the logistics support mission.

The Navy will hold two public meetings to provide information and solicit comments on the Draft EA. The meetings will be conducted using an open house format with information displays and materials available for public review. There will be no formal presentation. Navy staff will be present to answer general questions on the proposed transition and the Draft EA. **You may arrive anytime during the duration of the open house.**

Thursday, January 18, 2018
4:00 p.m. – 6:00 p.m.

Mary D. Pretlow Anchor Branch Library
111 W. Ocean View Ave, Norfolk, VA 23503

Tuesday, January 23, 2018
5:00 p.m. – 7:00 p.m.

Coronado Community Center
1845 Strand Way Coronado, CA 92118

Draft EA is available for public review at the following website: <http://www.aftteis.com/navy-v-22>

Printed and electronic copies of the Draft EA may be reviewed at the following libraries: **Coronado Public Library**, 640 Orange Avenue, Coronado, CA; **San Diego Central Library**, 330 Park Boulevard, San Diego, CA; **Point Loma/Hervey Branch Library**, 3701 Voltaire Street, San Diego, CA; **Imperial Beach Branch Library**, 810 Imperial Beach Boulevard, Imperial Beach, CA; **Mary D.
